

FORESTT

“The Best Show of 2017”

by Forum Club, Bielefeld (DE)

Forestt’s music can be best described as an experience rather than an ordinary musical act. In their very unique way, the band combines folk music, psychedelic rock and ethnic shamanic music into an enchanting and hypnotic musical trip that touches upon the essence of human experience. Their performance fosters connection and balances, excitement, magic and joy with a healthy dose of wildness, weaving words into stories and unexpected characters, with sounds that allow us to travel to many different places in our imagination.

In September 2017 the band was described by Forum, Bielefeld (DE) as the best show of 2017.

Their debut album, ‘Into the Woods’, was released in November 2018 and received warm reactions by local media, with songs reaching top national charts and the band playing to sold-out audiences across Israel.

“Forestt brilliantly balance between darkness and light which makes it hard for us not to get swept away in their story”
